

Introducing HMS IntegritySource™, the alliance for Medicaid program integrity.

Health Management Systems, Inc. (HMS) has created the HMS|IntegritySource alliance to provide a single set of resources to state agencies seeking confidence-building proof that their programs are performing at their very best.

We restore confidence- and recover cash.

Here's how:

A unique alliance

This is a unique alliance offering unmatched capabilities from vendors with decades of experience in the Medicaid program service industry. We deliver a single set of resources to state agencies.

Unparalleled experience

We aren't strangers. In fact, you're probably already working with us. HMS and our alliance partners have been aiding Medicaid agencies in every state of the union since 1985. And, we have well-established relationships with your providers.

Unmatched capabilities

Our portfolio of services addresses every component of Medicaid program integrity, resulting in a continuum of services that is simply not available from any other vendor.

Cash recoveries

Reports and analyses won't save your budget. We can take immediate action that can turn audit results into recoveries-cash you can use now.

Quick results

Our continuum of services can be implemented fast. We already have your data and no one has more expertise working with it. All you need to do is say "Yes."

A la carte services

You choose exactly the right set of services to complement your ongoing program integrity work—no more, no less.

A single point of contact

HMS|IntegritySource provides a single point of contact, coordination, and administration for all services. You only need to make one call.

A true partnership approach

Your one call will also bring you into a new relationship, one predicated on a close partnership between HMS|IntegritySource and each of its customers.

The HMS IntegritySource™ Service Portfolio

The Facts of the Matter

HMS IntegritySource has:

- Contracts with Medicaid agencies in all 50 states
- More than 40 million people covered by the agencies we serve

LET THEM
LOOK.

WE'VE GOT
YOU COVERED.

Medicaid Program Integrity: Not an easy task.

For a long time state Medicaid integrity program departments have been working hard to meet an increasing number and variety of demands on their time and resources.

As a result, all states face many critical challenges:

- Increased scrutiny from every direction
- New and expanded compliance objectives
- Increased financial exposure and risk
- The need to maintain good provider relations
- Strained personnel resources and over-worked staff
- Limited technological resources and tools

The efforts undertaken to meet these challenges have left many states strapped for the resources needed to effectively perform:

- Data analysis
- Identification
- Validation
- Recovery

But, no state program can do it all—certainly not alone—and none should have to.

RELAX.

Why continually try to do more with less—without help. When you choose HMS|IntegritySource, our resources become your resources. We'll take care of everything so you can manage your program. And, with cash recoveries in hand, you can relax with confidence.

Call HMS|IntegritySource today at 866.223.5432 or send an e-mail message to integritysource@hmsy.com to begin a new relationship with program integrity.
